#### 1.3. F00VC17505 Injector Nozzle Copper Washer Shim Parameter

Adaptation System: Common Rail System

Injector Nozzle Copper Washer Shim Series: CRI1 CRI2

Injector Nozzle Copper Washer Shim Type: High Pressure Common Rail Injector Nozzle Copper Washer

Shim

#### 1.4. F00VC17505 Injector Nozzle Copper Washer Shim Specifications And Dimensions

Injector Nozzle Copper Washer Shim Size: 11cm\* 9cm \*1cm

Injector Nozzle Copper Washer Shim Net Weight: 3g
Injector Nozzle Copper Washer Shim Gross Weight: 300g
Injector Nozzle Copper Washer Shim Quality: China Made New

Injector Nozzle Copper Washer Shim Package Size: 13.5cm\* 11cm \*1cm

Injector Nozzle Copper Washer Shim MOQ: 100 Pieces

#### 1.5. F00VC17505 Injector Nozzle Copper Washer Shim Quality Control

#### (1) Injector Nozzle Copper Washer Shim Testing

All injector nozzle copper washer shims are tested for electrical characteristics, accuracy, high temperature, low temperature, withstand voltage, leakage, durability, and various working conditions.

#### (2) Injector Nozzle Copper Washer Shim Assembling

For the quality control of the injector nozzle copper washer shim production and installation process, our company strictly follows the standard product installation data and product installation steps to install.

#### (3) Injector Nozzle Copper Washer Shim Inspection

The factory inspection of the injector nozzle copper washer shim is undergone full inspection, random inspection, and batch inspection three inspections. Different brands of test benches are used to test the same injector nozzle copper washer shim for more than three times for factory inspection, and the injector nozzle copper washer shim installation testing environment are progressed in dust-free workshop.

#### 1.6. F00VC17505 Injector Nozzle Copper Washer Shim Customized Service

(1) Injector Nozzle Copper Washer Shim Customized Service Coverage: Meet the customized needs of OEM manufacturers for shell lettering, logo engraving, injector nozzle copper washer shim internal packaging, injector nozzle copper washer shim external packaging and labels customized, etc.

Mob/Whatsapp: +86 13410541523 Tel: +8675523215133

Email: ruby@shumatt.com Website: www.shumatt.com

## (2) Injector Nozzle Copper Washer Shim Customized Service Requirements:

The quantity of customized injector nozzle copper washer shims shall not be less than 10 pieces.

The quantity of customized injector nozzle copper washer shim packages shall not be less than 1000 pieces. Customized products involve the need of specify logo, the OEM manufacturer needs to provide trademark authorization and the sample of logo image file.

▲ Once the customized injector nozzle copper washer shim is sold, it cannot be returned or exchanged if there are no quality problems.

#### 1.7. F00VC17505 Injector Nozzle Copper Washer Shim Packing List and Package Size

## (1) Injector Nozzle Copper Washer Shim Spare Parts List

bags to avoid personal injury.

• O-rings and injector nozzle washer shim are one-time installation accessories and need to be replaced when installed again.

The injector nozzle covers, injector housing cover and oil return cover are recyclable accessories and can be recycled.

• VCI anti-rust bags and bubble bags are non-degradable materials. Please dispose of them properly

The injector nozzle copper washer shim and the installation parts guide tube should be treated with appropriate sealing oil during installation.

## 1.8. F00VC17505 Injector Nozzle Copper Washer Shim Testing Standard and Certificate

Shumatt can provide the factory quality inspection test report of each injector nozzle copper washer shim to ensure that each injector nozzle copper washer shim delivered meets the engine performance indicators.

Mob/Whatsapp: +86 13410541523 Tel: +8675523215133

Email: ruby@shumatt.com

Website: www.shumatt.com

### 1.9. F00VC17505 Injector Nozzle Copper Washer Shim Warranty Instructions

## (1) Product Warranty Conditions and Instructions

It is necessary to provide pictures, videos, or test reports detected by the injector nozzle copper washer shim inspection equipment when the injector nozzle copper washer shim is abnormal during use as evidence to feed back to the salesman.

Abnormal conditions are properly explained such as: 1. Smoke, 2. Engine shake, 3. Difficulty starting the engine, 4. Engine noise, 5. oil leakage etc.

## (2) Injector Nozzle Copper Washer Shim Warranty Coverage

Within 15 days after customer receives the F00VC17505 injector nozzle copper washer shim, if there is a performance failure and the product has no appearance damage, customer can choose to replace it or repair it;

If the F00VC17505 injector nozzle copper washer shim has performance problems during the warranty period (6-12 months), and it is confirmed that it is product's problems after testing, you can contact our salesmen to replace the same model or a reworked product with the same performance for free;

If the injector nozzle copper washer shim house has obvious scratches, it can only be repaired and it will be returned as it is if the product is confirmed to be fault-free.

Tips: For products not covered by warranty, our company can provide paid maintenance services. For products after paid repaired, the same performance problem will have a free warranty period within 3 months from the date of repairing.

Mob/Whatsapp: +86 13410541523 Tel: +8675523215133

Email: <u>ruby@shumatt.com</u> Website: <u>www.shumatt.com</u>

## (3) Injector Nozzle Copper Washer Shim Out of Warranty Coverage

- ① The warranty period has expired.
- ② Injector nozzle copper washer shim failure caused by high temperature, high pressure, humidity, rain and snow, saline-alkali land, earthquake, and used in abnormal environment.
- 3 Customer disassembles or repairs the injector nozzle copper washer shim personally resulting in damage to the injector nozzle copper washer shim.
- ④ Injector nozzle copper washer shim damage caused by man-made reasons (throwing, strong magnetic field magnetization, set fire).
- ⑤ Injector nozzle copper washer shim failure or injector nozzle copper washer shim damage caused by non-injector nozzle copper washer shim design, technology, manufacturing, quality, and other issues.
- 6 Injector nozzle copper washer shim failure due to system pressure exceeding system approved pressure.
  - Injector nozzle copper washer shim failure caused by system voltage exceeding approved voltage.
- ® Injector nozzle copper washer shim failure caused by impurities (water, lead, aluminum powder, iron powder, sulfide) in the system fuel exceeding the standard requirements.
- 9 Injector nozzle copper washer shim failure caused by not installing according to the tightening torque specified in the vehicle engine maintenance manual (the tightening torque is too large or too small).
- Injector nozzle copper washer shim failure caused by not following the installation angle specified in the vehicle engine maintenance manual.
- 11 Injector nozzle copper washer shim failure caused by not following the cleaning requirements specified in the vehicle engine maintenance manual.
- 12 Injector nozzle copper washer shim failure caused by failure to replace consumable parts as specified in the vehicle engine maintenance manual.
- 13 Injector nozzle copper washer shim failure caused by not complying with the intake system fit clearance and exhaust system fit clearance requirements specified in the vehicle engine maintenance manual.
- 14 Failure to replace the consumable parts and the fitting clearance of the oil inlet system pipeline and the injector nozzle copper washer shim connection in accordance with the fuel intake system specified in the vehicle engine maintenance manual.
- 1.10. F00VC17505 Injector Nozzle Copper Washer Shim Manufacturer
  Injector Nozzle Copper Washer Shim Manufacturer: Shenzhen Shumatt Technology Co., Ltd
- 2. F00VC17505 Injector Nozzle Copper Washer Shim Technical Support
- 2.1. F00VC17505 Injector Nozzle Copper Washer Shim Use Location

## 2.2. F00VC17505 Injector Nozzle Copper Washer Shim Installation

## (1) F00VC17505 Injector Nozzle Copper Washer Shim Installation Precautions:

The replacement of the injector nozzle copper washer shim must strictly follow the electrical system, the approved pressure of the low-pressure fuel intake system, the approved pressure of the high-pressure fuel circuit system, and fuel system replacement consumables requirements (including the low-pressure fuel circuit system filter and the high-pressure fuel circuit) specified in the vehicle engine maintenance manual.

Replacement of wearing parts of the fuel system, cleaning requirements for the connection between the fuel system and the injector nozzle copper washer shim, the fitting clearance of the injector nozzle copper washer shim connection, the installation angle and tightening torque of the injector nozzle copper washer shim, the fitting clearance of the intake system, and the fitting clearance of the exhaust system to ensure the service life of the engine and the normal operation of the injector nozzle copper washer shim.

⚠ When installing the injector nozzle copper washer shim on the engine, it is necessary to clean the engine block, cylinder head and other parts connected to the injector nozzle copper washer shim, and ensure that there is no dust, carbon deposits, water, rust spots, etc.

When installing the injector nozzle copper washer shim on the engine, please carefully check the components related to the installation of the injector nozzle copper washer shim, such as the injector nozzle copper washer shim pressure plate, screw, injector nozzle copper washer shim rod and other accessories are not deformed, and install it in strict accordance with the operation steps of the engine maintenance manual.

Mob/Whatsapp: +86 13410541523 Tel: +8675523215133

Email: ruby@shumatt.com

Website: www.shumatt.com

A It is forbidden to operate the bare injector nozzle copper washer shim for a long time in an environment with serious dust pollution and corrosion to iron products.

A It is forbidden to operate the bare injector nozzle copper washer shim for a long time in a strong magnetic field environment.

#### 2.3. F00VC17505 Injector Nozzle Copper Washer Shim Not Working Normally

- (1) There is air in the oil circuit of the engine fuel system.
- (2) Vehicle oil pump's oil supply system is not normal.
- (3) Engine common rail system oil leakage or pressure limiting valve damage.
- (4) There is a short circuit, cutting out and poor contact in the wiring harness connected to the injector nozzle copper washer shim of the vehicle.
- (5) The long-term placement of the injector nozzle copper washer shim causes the anti-rust oil to solidify, and the internal components are stuck or the oil holes are blocked.

A Before installing, carefully check whether other components in the common rail system except the injector nozzle copper washer shim are damaged to prevent the injector nozzle copper washer shim from not working properly after being replaced.

#### 2.4. F00VC17505 Injector Nozzle Copper Washer Shim Causes of Being Damaged

- (1) Didn't operate properly according to engine maintenance manual during disassembly or installation, resulting in damage to the injector nozzle copper washer shim.
- (2) The fuel oil used for the vehicle does not meet the standard cause damage to the injector nozzle copper washer shim, such as: the water content in the fuel oil exceeds the standard, iron powder, aluminum powder, sulfide impurities exceed the standard, etc.
- (3) The engine is not regularly maintained according to the engine maintenance manual (please refer to the vehicle maintenance manual for the maintenance mileage). For example, failure to replace the lubricating oil of the engine system for a long time will cause abnormal wear of the engine, excessive exhaust gas volume or a large amount of carbon deposits inside the engine. The filter is not replaced during maintenance or the replaced filter cannot reach the original filter standard. all above reasons can cause damage to the injector nozzle copper washer shim.
- (4) The abrasion of the injector nozzle copper washer shim produces iron powder and aluminum powder enter the injector nozzle copper washer shim and cause damage to the injector nozzle copper washer shim.
- (5) The deformation and abrasion of fuel tank result in iron powder or aluminum powder entering the injector nozzle copper washer shim and causing damage to the injector nozzle copper washer shim.
- (6) The injector nozzle copper washer shim is damaged due to replacement or adjustment of the relevant parts of the injector nozzle copper washer shim. For example, the valve clearance does not meet the standard after the engine is repaired, the replacement or modification of the wiring harness connected to the injector nozzle copper washer shim fails to meet the original standard.
- (7) The engine is overheated and overloaded for a long-time working result in damage to the injector nozzle copper washer shim.
- (8) The injector nozzle copper washer shim will be damaged naturally at the end of its working life.

Mob/Whatsapp: +86 13410541523 Tel: +8675523215133

Email: <u>ruby@shumatt.com</u> Website: <u>www.shumatt.com</u>

(9) The injector nozzle copper washer shim is magnetized (injector nozzle copper washer shim parts' magnetic exceeded) causing the injector nozzle copper washer shim to not work properly.

Before replacing the injector nozzle copper washer shim, please check the engine parts carefully according to the engine maintenance manual to avoid the injector nozzle copper washer shim being damaged again after replacement.

## 2.5. F00VC17505 Injector Nozzle Copper Washer Shim Technical Support Obtaining Methods

- (1) Injector Nozzle Copper Washer Shim Technical File, visit <a href="http://shumatt.com">http://shumatt.com</a> to get the technical file.
- (2) Injector Nozzle Copper Washer Shim Technical Videos

YouTube: https://www.youtube.com/channel/UCByvYBx7VjV mAfxh Hu-aw to get the technical videos, constantly follow can get more information.

Pallet shipment: Use pallets that meet export requirements and wrap with white plastic wrap and tie.

## 4. F00VC17505 Injector Nozzle Copper Washer Shim Storage Standard

#### (1) Choose a Suitable Storage Place

The warehouse and cargo yard where the injector nozzle copper washer shim is stored should be kept clean and dry, and away from the factory buildings that generate harmful gases and dust; do not mix with acids, alkali, salt, and other substances; the storage place should have a good drainage system; the cargo yard should be flattened with gravel or furnace ash etc. to enhance the water permeability of the surface layer to keep the reservoir area dry.

#### (2) Strict Requirements of Warehousing

Strict inspections should be carried out when the injector nozzle copper washer shims are put into

Mob/Whatsapp: +86 13410541523 Tel: +8675523215133

Email: <u>ruby@shumatt.com</u> Website: <u>www.shumatt.com</u>

storage, the surface cleaning work should be done well to remove water traces, oil stains, ashes, and other dirt, remove the rust and do anti-rust treatment in time. Packaged injector nozzle copper Washer Shims must be protected from damage.

#### (3) Keep The Warehouse Dry And Preventing Moisture

The relative humidity is usually below 70% for the injector nozzle copper washer shims placed in the room, and the corrosion of the injector nozzle copper washer shims is significantly reduced.

Injector nozzle copper washer shims must be stored in the warehouse, and they are forbidden to store in the same warehouse with commodities with high water content.

#### (4) Stack Properly

After the injector nozzle copper washer shim is exposed to rain, the corrosion rate will increase significantly. The purpose of sealing is to isolate the injector nozzle copper washer shim from rainwater and humid air, so the warehouse window should be checked in time to avoid rainwater entering the warehouse.

If the injector nozzle copper washer shim package is damaged, it should be repaired or replaced; when the package is damp, the packaging material should be dried; if the original anti-corrosion and oil applied at the factory is found to be damaged or dried up, it should be cleaned and re-applied oil in time.

A It is forbidden to leave the injector nozzle copper washer shim exposed in the air for a long time.

although the street street A It is forbidden to store acids, alkalis, salts, and other substances together with the injector nozzle

The unpacked injector nozzle copper washer shim must be rust-proof during secondary storage. September 1 2000
